As a student of Information Management, I possess the knowledge and skills to handle various managerial situations effectively. Additionally, my IT expertise enables me to engage in creative problem-solving and technical tasks. The combination of these skills equips me for multidisciplinary activities across different fields. I also spend my time in programming, photography, videography and content creation.

EXPERIENCE

Video Production Head Biratnagar
Himalaya Darshan College Jan, 2025 - Jan, 2025

I served as a video production head at the PUBG Mobile Biratnagar Championship (PMBC) organized by Himalaya Darshan College. During that time, I made few marketing videos and served as a live video editor during the event.

Marketing Videomaker Biratnagar
Himalaya Darshan College Apr, 2025 - May, 2025

I made marketing videos for my college. During that time, I learned about video making and it helped me improve my editing skills.

Laravel Depeloper Biratnagar
Rato Guras Technology Pvt. Ltd. Apr, 2025 - Present

Currently I'm working as a Laravel developer at Rato Guras Technology Pvt. Ltd. I'm working on live projects which is helping me improve my development knowledge.

EDUCATION

Secondary Education Biratnagar
Shree Pokhariya Secondary School Mar, 2016 - Mar, 2019

High School (Management) Biratnagar
Merryland College Jul, 2019 - Aug, 2021

Bachelor of Information Management Biratnagar
Himalaya Darshan College Dec, 2021 - Present

PROJECTS

CR-Election Online Voting System

CR Voting System is a PHP based project developed to transform currently physical voting process for Class Representatives into an automated system.

Marketing Video Project

I made marketing videos for my college. It served as a tool to attract new comers to the college.

Bus Ticket Reservation System

Bus Ticket Reservation System is a Laravel based project dedicated to transform currently mismanaged ticket system through a systematic dedicated platform. It provides a platform for bus companies to add their vehicles and schedules and passengers to view available buses and easily book their tickets. It is my academic project and it helped me to gain and improve my knowledge on Laravel Framework.

Rato Guras Website

I worked as a frontend developer to create website for Rato Guras Technology. While developing it, I became comfortable with using Tailwind CSS and more on how to work as a team.

www.ratoguras.com

Academy Management System

I worked as a Lead and sold developer for developing Academy Management System for Birat Sports Zone located in Biratnagar. The system is able to manage different kinds of sports and students associated to it as well as coaches associated with different sports, batches and shifts. It is able to handle different kinds of billings that an academy needs. It is currently live and functional.

SKILLS

MS- Word, Excel and Powerpoint, PHP/Laravel, Designing - Canva, Video Editing - Davinchi Resolve, Photography and videography, Content Creation

LANGUAGE

Nepali, English, Hindi
